26. Dynamac Corporation *is* registered in the Central Contractor Registration (CCR) database.
27. Uncompensated Overtime: Dynamac Corporation *does not* practice uncompensated overtime

CONTRACT OVERVIEW

GSA awarded Dynamac Corporation a GSA Federal Supply Schedule contract for Consolidated Products and Services (CONS), Contract No. GS-00F-0029P. The current contract period is April 29, 2001 – April 28, 2014. GSA may exercise a total of up to two additional 5 year option periods. The contract allows for the placement of Firm Fixed Price or Time and Materials task orders using the labor categories and ceiling rates defined in the contract.

CONTRACT ADMINISTRATOR

Kip Duncan, Dynamac Corporation
1901 Research Blvd, Suite 220
Rockville, MD 20850
Telephone: (301) 417-6134
Fax Number: (301) 417-6132
Email: kduncan@dynamac.com

MARKETING AND TECHNICAL POINT OF CONTACT

Michael Wray, Dynamac Corporation
1901 Research Blvd, Suite 220
Rockville, MD 20850
Telephone: (301) 417-6076
Fax Number: (301) 417-6132
Email: mwrap@css-dynamac.com

CONTRACT USE

This contract is available for use by all federal government agencies, as a source for Consolidated Products and Services, for worldwide use. Executive agencies, other Federal agencies, mixed –ownership Government corporations, and the District of Columbia; government contractors authorized in writing by a Federal agency pursuant to 48 CFR 51.1; and other activities and organizations authorized by statute or regulation to use GSA as a source of supply may use this contract. Additionally, contractors are encouraged to accept orders received from activities within the Executive Branch of the Federal Government.

CONTRACT SCOPE

The contractor shall provide all resources including personnel, management, supplies, services, materials, equipment, facilities and transportation necessary to provide a wide range of professional services as specified in each task order.

Services specified in a task order may be performed at the contractor's facilities or the ordering agencies' facilities. The government will determine the contractor's compensation by any of several different methods (to be specified at the task order level) e.g., a firm-fixed price for services with or without incentives, labor hours or time-and-material.

The Special Item Numbers (SINs) available under this contract provide services across the full life cycle of a project. When task orders are placed, they must identify the SIN or SINs under which the task is being executed. Dynamac Corporation has been awarded a contract by GSA to provide services under the following SINs:

ENVIRONMENTAL

- SIN C899-1: Environmental Consulting Services
- SIN C899-3: Environmental Training Services
- SIN C899-7: Geographic Information Systems (GIS) Services

IT

- SIN C 132-51: Information Technology Professional Services

A full description of each SIN definition and examples of the types of work covered by the SIN are provided below.

SPECIAL ITEM NUMBER (SIN) DESCRIPTIONS

SIN C899-1 --- Environmental Consulting Services

Services include, but are not limited to: Planning and Documentation Services for the development, planning, facilitation, coordination, and documentation of and/or for environmental initiatives (or mandates such as Executive Order 13423) in areas of chemical, radiological, and/or hazardous materials; ISO 14001 Environmental Management System (EMS) and sustainable performance measure development; Environmental Assessment (EA) and Environmental Impact Statement (EIS) preparation under the National Environmental Policy Act (NEPA); Endangered species, wetland, watershed, and other natural resource management plans; Archeological and/or cultural resource management plans; Environmental program and project management; Environmental regulation development; Economic, technical and/or risk analysis; other environmentally related studies and/or consultations; Homeland Security solutions that include Biochemical protection; Crime prevention through environmental design surveys (CPTED); Economical, technical and/or risk analysis; Identification and mitigation of threats inclusive of protective measures to mitigate the threats; and Vulnerability assessments. Compliance Services such as review, audit, and implementation/management of EMS and other compliance and contingency plans and performance measures; Permitting; Spill prevention/control and countermeasure plans; Pollution prevention surveys; and Community Right to-Know Act reporting. Advisory Services for ongoing advice and assistance with data and information in support of agency environmental programs involving areas such as Hazardous material spills; Material safety data sheets (MSDS), Biological/medical data sheets; Information hotlines; Poison control hotlines; Environmental regulations and environmental policy/procedure updates; Management, furnishing, or inventory of MSDS. Waste Management Consulting Services to provide guidance in support of waste-related data collection, feasibility studies and risk analyses;

C899-3 --- Environmental Training Services

Training to include standard (off -the-shelf), customized, and/or computer-based interactive courses, as well as converting existing courses to electronic media. Training may be conducted on or off site and may be on any number of environmentally related issues, including fire preparedness training and public fire safety education.

C899-7 --- Geographic Information Systems (GIS) Services

Provide services, advice, or guidance in support of agencies environmental programs utilizing GIS. Services include, but are not limited to: Cultural resource GIS (CRGIS); Environmental cost assessment; Environmental impact analyses; Environmental regulatory compliance; Groundwater monitoring; Growth forecast modeling; Habitat conservation plans; Habitat modeling; Image analysis support for emergency response; Mapping, Cartography and Mashups (e.g., combining data from more than one source into a single integrated tool); Migration pattern analysis; Natural resource planning; Remote sensing for environmental studies; Terrestrial, marine, and/or atmospheric measuring/management; Vegetation mapping; and Watershed characterization for mitigation planning.

SIN C132-51 --- Information Technology Services

Includes resources and facilities management, database planning and design, systems analysis and design, network services, programming, millennium conversion services, conversion and implementation support, network services project management, data/records management, subscriptions/publications (electronic media), and other services.

INSTRUCTIONS FOR PLACING ORDERS FOR SERVICES BASED ON GSA SCHEDULE HOURLY RATES

GSA provides a streamlined, efficient process for ordering the services you need. GSA has already determined that Dynamac Corporation meets the technical requirements and that our prices offered are fair and reasonable. Agencies may use written orders; facsimile orders, credit card orders, blanket purchase agreement orders or individual purchase orders under this contract.

If it is determined that your agency needs an outside source to provide Consolidated services – encompassing Environmental and Information Technology (IT) Services - follow these simple steps:

Step 1. Develop a Statement of Work (SOW)

In the SOW, include the following information:

- Work to be performed,
- Location of work,
- Period of performance;
- Deliverable schedule, and
- Special standards and any special requirements, where applicable.

Step 2. Select Contractor and Place Order

- If the order is at or below the micro-purchase threshold, select the contractor best suited for your needs and place the order.
- If the order is exceeding but less than the maximum order threshold (MOT), prepare an RFQ;
- If the order is in excess of the MOT, prepare an RFQ. Consider expansion of competition and seek price reductions.

Step 3. Prepare a Request for Quote (RFQ)

- Include the SOW and evaluation criteria;
- Request fixed price, ceiling price, or, if not possible, labor hour or time and materials order;
- If preferred, request a performance plan from contractors and information on past experience; and include information on the basis for selection.
- May be posted on GSA's electronic RFQ system, e-Buy

Step 4. Provide RFQ to at least Three Firms

Step 5. Evaluate Offers, Select Best Value Firm, and Place Order

REQUIREMENTS EXCEEDING THE MAXIMUM ORDER

In accordance with FAR 8.404, before placing an order that exceeds the maximum order threshold, ordering offices shall:

- Review additional schedule contractors' catalogs/price lists or use the "GSA Advantage!" on-line shopping service;
- Based upon the initial evaluation, generally seek price reductions from the schedule contractor(s) appearing to provide the best value (considering price and other factors); and
- After price reductions have been sought, place the order with the schedule contractor that provides the best value and results in the lowest overall cost alternative (see FAR 8.404(a)). If further price reductions are not offered, an order may still be placed, if the ordering office determines that it is appropriate.

Vendors may:

Offer a new lower price for this requirement (the Price Reduction clause is not applicable to orders placed over the maximum order in FAR 52.216-19 Order Limitations.)

- Offer the lowest price available under the contract; or
- Decline the order (orders must be returned in accordance with FAR 52.216-19).

A task order that exceeds the maximum order may be placed with the Contractor selected in accordance with FAR 8.404. The order will be placed under the contract.

Sales for orders that exceed the Maximum Order shall be reported in accordance with GSAR 552.238-74.

BLANKET PURCHASE AGREEMENT

Ordering activities may establish BPAs under any schedule contract to fill repetitive needs for supplies or services. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPAs and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). In determining how many BPAs to establish, consider:

- The scope and complexity of the requirement(s);
- The need to periodically compare multiple technical approaches or prices;
- The administrative costs of BPAs; and
- The technical qualifications of the schedule contractor(s).

Establishment of a single BPA, or multiple BPAs, shall be made using the same procedures outlined in 8.405-1 or 8.405-2. BPAs shall address the frequency of ordering, invoicing, discounts, requirements (*e.g.* estimated quantities, work to be performed), delivery locations, and time.

When establishing multiple BPAs, the ordering activity shall specify the procedures for placing orders under the BPAs.

Establishment of a multi-agency BPA against a Federal Supply Schedule contract is permitted if the multi-agency BPA identifies the participating agencies and their estimated requirements at the time the BPA is established.

Ordering from BPAs:

Single BPA. If the ordering activity establishes one BPA, authorized users may place the order directly under the established BPA when the need for the supply or service arises.

Multiple BPAs. If the ordering activity establishes multiple BPAs, before placing an order exceeding the micro-purchase threshold, the ordering activity shall:

- Forward the requirement, or statement of work and the evaluation criteria, to an appropriate number of BPA holders, as established in the BPA ordering procedures; and
- Evaluate the responses received, make a best value determination (see 8.404(d)), and place the order with the BPA holder that represents the best value.

BPAs for hourly rate services. If the BPA is for hourly rate services, the ordering activity shall develop a statement of work for requirements covered by the BPA. All orders under the BPA shall specify a price for the performance of the tasks identified in the statement of work.

Duration of BPAs. BPAs generally should not exceed five years in length, but may do so to meet program requirements. Contractors may be awarded BPAs that extend beyond the current term of their GSA Schedule contract, so long as there are option periods in their GSA Schedule contract that, if exercised, will cover the BPA's period of performance.

Review of BPAs:

The ordering activity that established the BPA shall review it at least once a year to determine whether:

- The schedule contract, upon which the BPA was established, is still in effect;
- The BPA still represents the best value (see 8.404(d)); and
- Estimated quantities/amounts have been exceeded and additional price reductions can be obtained.

The ordering activity shall document the results of its review.
